

Resources to Scale Diabetes Prevention in New York State

Maureen Spence, RD, MS
Assistant Director, Bureau of Community Chronic Disease Prevention
&
Susan Millstein, LCSW-R, MPH
Director, Diabetes Prevention and Control Program
NYS Department of Health

Diabetes Prevention and Control Program (DPCP) Key Priority

- Increase access to sustainable, evidence-based lifestyle interventions to prevent or delay onset of type 2 diabetes among people at high risk

DPCP Support, Looking Ahead....

National Diabetes Prevention Program

COMPONENTS

Training: Increase Workforce

Train the workforce that can implement the program cost effectively.

Recognition Program: Assure Quality

Implement a recognition program that will:

- Assure quality.
- Lead to reimbursement.
- Allow CDC to develop a program registry.

Intervention Sites: Deliver Program

Develop intervention sites that will build infrastructure and provide the program.

Health Marketing: Support Program Uptake

Increase referrals to and use of the prevention program.

DPCP Support of NDPP

- **Training: Increase Workforce** - *train the workforce that can implement the program effectively*
 - Support/coordination of lifestyle coach trainings
 - Center for Excellence in Aging and Community Wellness Quality and Technical Assistance Center (QTAC) for training/TA
